

## MEDIA INTERVIEW

# Help Your Audience Get What They Want In Life

### Want to Have Your Dreams Come True? *The First Thing You Need is A Notebook.*

Henriette Anne Klauser's *Write it Down, Make it Happen* is appealingly simple.  
--National and Financial Post, Toronto, Ontario

Whether your readers want to fly a plane, stop smoking, live in Paris, pay off their loans, find a spouse, or simply have a better relationship with a teenage son, the results they want are as simple as a piece of paper and as close as their pen.

**Jim Carrey**, as a struggling actor, walked up to the top of the Hollywood Hills and wrote a check to himself for ten million dollars. **Scott Adams**, creator of *Dilbert*, wrote down his goals to be a syndicated cartoonist, one step at a time. Adams says, when you write down a goal, "you'll observe things happening that will make that objective more likely to materialize."

**Henriette Anne Klauser, Ph.D.** is the author of *Writing on Both Sides of the Brain* (in its 27th printing); *Put Your Heart on Paper*; *Write it Down, Make it Happen*; and the new, *With Pen In Hand*.
